While you were lounging about, we've already sprayed the interior with the Spring Cooler.

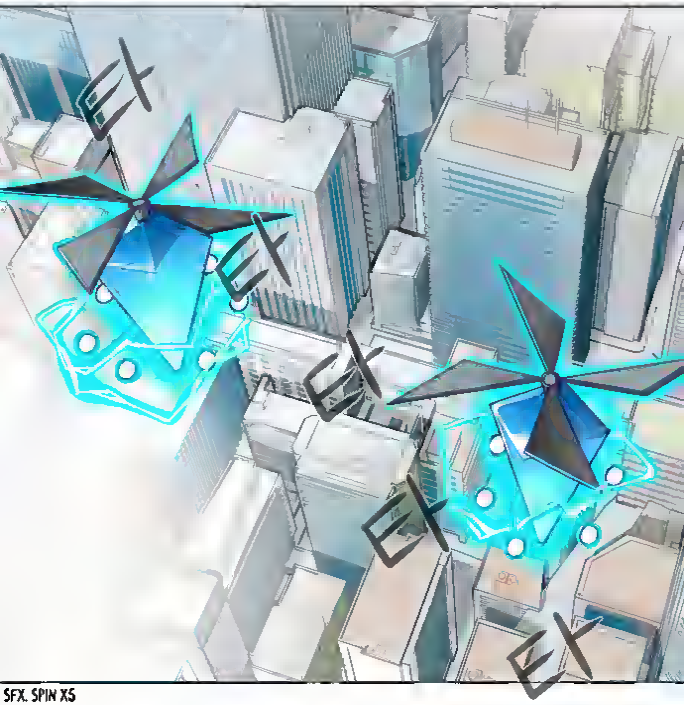
Only the exterior's left.
The affected area is bigger than expected. Use this to take care of it.

I'm glad we have this at least.
That person made this as well, right? Re... Ressi?
Don't mention that name in front of me.

?

I said, DON'T. MENTION. IT.
Ahem! Attention to all SHADOWs outside the building~!

The Eraser Rain is about to commence.



SFX. SPIN X5

All human workers, would you kindly check your bracelets—

SFX. BEEP X8

Although it's never happened before.

WITHOUT REMORA SUNBAE, WE ONLY HAVE THE OLD GEEZER...
And how am I supposed to trust him?
Oi, oi. You know I'm standing right behind you, right?

Don't worry about it, I've called someone for help.

Goodbye my intuition.

How distressed Remora must be, to have forgotten the great existence that is I, Aessi.
Though I find it difficult to believe he cannot remember such beauty,
This simply proves that my inventions are beyond compare.

Ramble

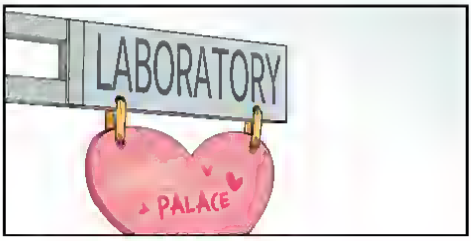
Is... is it really okay?
Probably..?

Even though she seems a little strange, she's the one who invents all the equipment we use in SHADOW.
Oh, I just realised. Where is Remora?
Head of the Department of Technical Information, Aessi
This is very strange indeed, to have an equipment malfunction... It has never happened before...
It's been happening all the time nowadays. And it's weird that only a part of his memories were erased.
You are correct. I believe further investigation into this situation is in order.

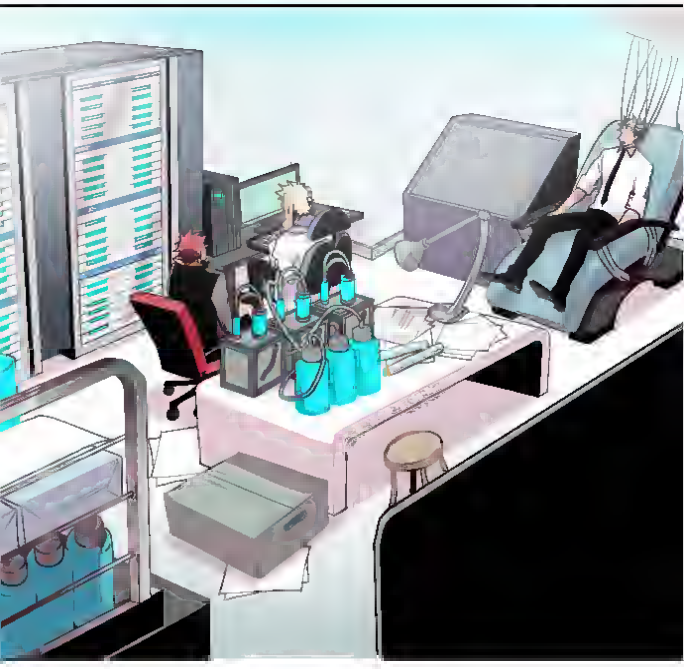
I now fully comprehend the situation.
I would like to request some help from you two gentlemen.

Ah...
Huh? Do you know something?

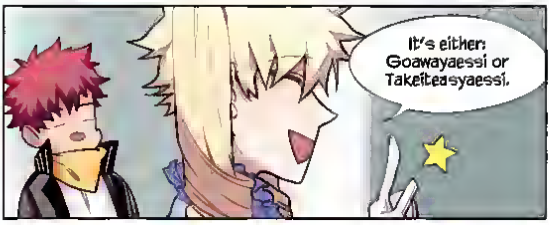
The sole reason I've been in SHADOW for such a long time.



LABORATORY
PALACE

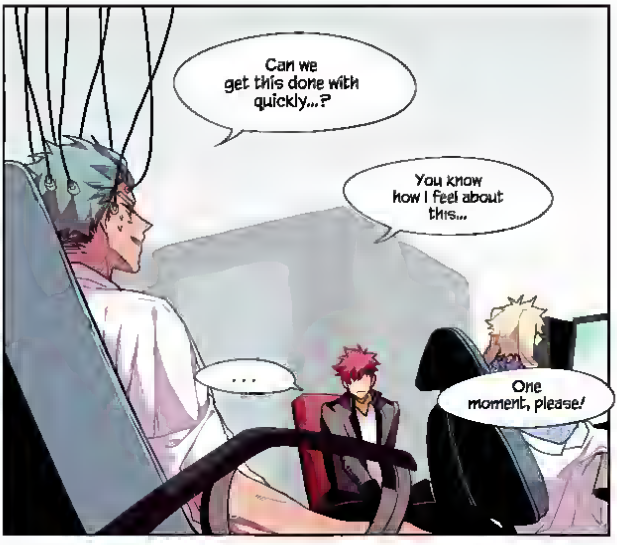


HIGH-SECURITY PASSWORD
Don't we need to know the password to get access? Do you know what it is?
Have no fear!



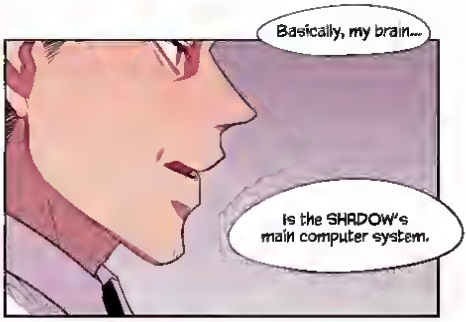
It's either: Goawayaessi or Takeiteasyaessi.

Aha! It's Takeiteasyaessi!
Ah... Maybe it'd be for the best if we left Sunbae with missing memories.

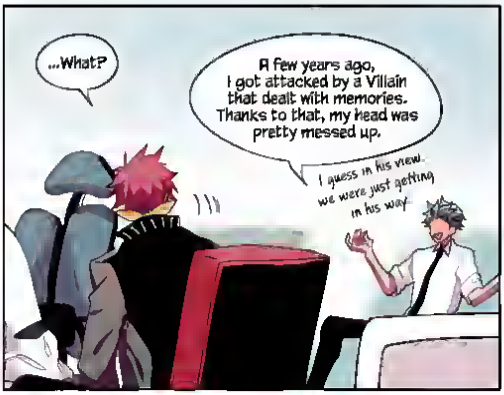


Can we get this done with quickly...?
You know how I feel about this...
...
One moment, please!

So this is why you've stayed in SHADOW for so long?
You get away with being so lazy all the time just because of this...?
How come?
You've been pretty direct with your words recently, haven't you?

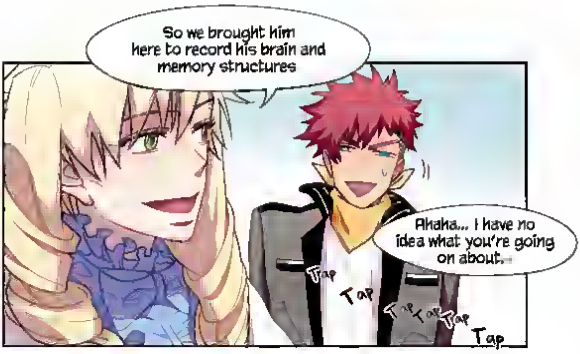


Basically, my brain...
Is the SHADOW's main computer system.



...What?
A few years ago, I got attacked by a Villain that dealt with memories. Thanks to that, my head was pretty messed up.
I guess in his view, we were just getting in his way.

So Alessi was called in to try and help restore my brain,
Things happened, and voila! I became a direct link to the mainframe!



So we brought him here to record his brain and memory structures
Ahaha... I have no idea what you're going on about...

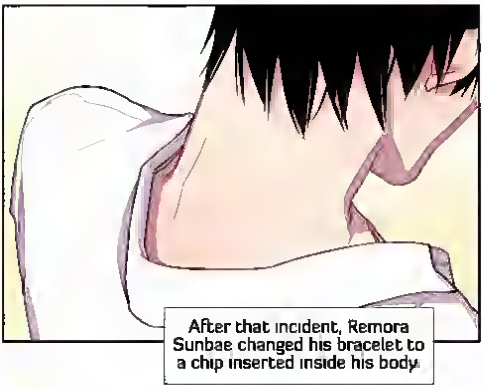
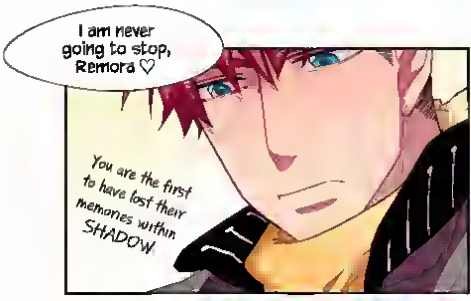
Sunbae...!
That's definitely Remora!
The future of SHADOW !

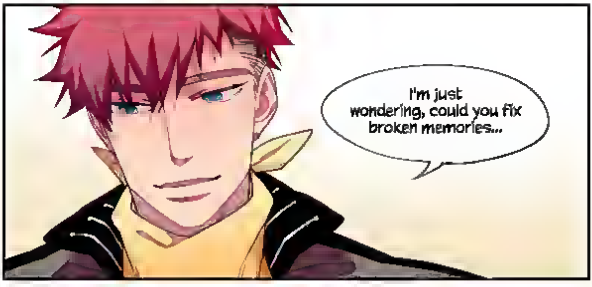


After that incident, Remora Sunbae changed his bracelet to a chip inserted inside his body.



I am never going to stop, Remora ♡
You are the first to have lost their memories within SHADOW.

Hey,
?
I don't at
have to go
look for your
day at home!



I'm just wondering, could you fix broken memories...

That've been deleted by something other than Eraser Rain...?

Korean Honorifics Lesson!

Oppa - A friendly way of addressing an older man near your age if you're a girl
Oppa is also used (though not synonymously) by girls addressing their boyfriends

Nim - A formal way of addressing someone typically older and/or more respected than you

Ssi - A formal way of addressing someone you do not know or are unfamiliar with

Nuna - A friendly way of addressing an older woman near your age if you're a guy
Nunim - A more respectful way to say nuna

Hyung - A friendly way of addressing an older man near your age if you're a guy

Unni - A friendly way of addressing an older woman near your age if you're a girl

Ajumma - Older woman typically aged between mid/late 30's ~ early 50s. Calling someone younger than mid 30's this is rather offensive

Ajussi - Older man typically aged between mid/late 30's ~ early 50s. Korean men, especially those in their 30s prefer to be called hyung/oppa by those younger than him rather than Ajusshi

Sunbae - Is used to address senior colleagues or mentor figures e.g. students referring to or addressing more senior students in schools

Hubae - Is used to refer to juniors. However the term is not normally addressed to them directly, and is mainly used in the third person
This is nearly identical in Japanese with Senpai/Kohai honorifics

Naeuri - Was used by commoners in the Joseon Dynasty to refer to people of higher status but below "His Excellency"

Seonsaeng - Commonly translated as "teacher", has much more formality and is used to show respect to the addressee. It is related to the Japanese honorific "sensei" and shares the same pair of Chinese characters representing 'mister' or 'one born earlier' (literal)

It's about time you learn them!
